About This Game

Lily has never been quite like other people. Since she was a child, her wild imagination and strong memory have given her the talent to create her own home. A place in her mind away from the dangers of the world, to keep her dreams and memories safe.

But during a night out with her friends, something happened. Something terrible and now her life has changed forever. Help Lily use her imagination to unlock her memories and relive the events of that night.

Discover what happened and what is 103, a first-person mystery adventure video game developed by Dystopia Interactive.

- Play through 103 simply by looking at objects to piece the story together. The more that you observe the environment, the more you understand. Primary instructions and simple riddles are given through two picture frames which direct you to progress.
- 103 focuses on having a smaller, detailed environment that you can explore. Read messages, solve puzzles, view pictures and objects as well as experience events and encounter characters that all help you understand what happened.

I love this game it's not very interactive. but it's a thing all in its own league. it's absolutely something you have to experience for yourself. after playing it live on my youtube people loved it. so yes I definitely recommend you buy this game. I expect great things from this developing studio. I won't go in depth about this game cause I don't wanna spoil. if I had to rate this game it gets a 9/10 why? I don't give a 10 and second some puzzles were kinda difficult and you run in circles a lot.. You start the game having no idea what's going on. Why are you aimlessly walking down these neverending corridors? Why are there moving dolls and teddy bears? But as you progress further into the game, you start to understand what the story is and how it progresses. I will say it's a pretty sad and unexpected ending, but definitely pick this game up when you can. Also the game is a bit short for what the price is [took me a little over 30 minutes to beat it] but if you can, play this game. It's worth it. The game is a bit on the short side but that aside, the game is well done. The atmosphere is eerie and the music is very nice. I didn't notice any bugs and for a smaller made game I would say that's rare that a game would be so polished. The game is worth the full price in my opinion.. Wow! This was an absolutely stunning game. Thoroughly enjoyed it from start to finish. The ending was so good. Really great work!. The art is lovely! But the game itself is a huge NOPE, to quote the writing on the wall (in game) "what a waste of time," I hope they try again with a better story and puzzles that make sense.. A great indie game!. Such a beautiful game. Love the idea and wow, what a powerful message. I will definitely recommend this game to everyone I know. Good job developers, everything came together wonderfully. So happy that I found you on Kickstarter, and so proud to have been able to back you.. Very short, but nonetheless very good.

This is a unique experience.

Its short, sweet & perfect if you want to play something different but don't have too much time on your hand.

Its about 1-2 hours long, depending on how much of a monkey you are :D (I'm a gorilla, took me 2 almost) but its fun.

Indie developers should be supported when doing projects like this !

I have to admit, I tried out a pirated copy at first, but after seing how nice the game was here I am, instantly bought it & writing a review encouraging people to try it out.

Made a youtube walkthrough on it, if you are interested you can check it out here --->

<https://www.youtube.com/watch?v=jhmIQvOSrU>. Great art & story with PT-ish gameplay style!

Complaint:

I spent so much time discovering the very first whiteboard ...This "staring-at-object" mechanic works well in walking-simulator games, but the time could be reduced in order to help players discover it.

Conclusion:

Exceptional!. Check out my video at 01:45 for a spoiler free overview of 103:

<https://youtu.be/zZuXs8dJ9Ps?t=105>. 103 is a great game, The way it looks, the sounds ,and how the story is told it's just unique.

It only takes like an hour to finish the game and there is one puzzle that may be a little difficult ,but nevertheless a great game.

~ ●E-FreYx ●. quot;What a waste of time" indeed. This is a very short and immensely pretentious walking simulator with hardly any gameplay to speak of. It's basically a demo, not a game. Please do not make the mistake I made and pay full price for this so-called "game". If you really have nothing better to do for an hour of your life, at least wait until this is massively discounted or even made free.
